

The young pay first.

Under-25s carry 31% of the jobs AI takes away

saro-saravanan.github.io/ai-workforce-sim

HOW THE CUT ARRIVES

Attrition and hiring freezes first, layoffs second.

The people who cannot yet vote with their feet pay.

SHARE OF THE SHORTFALL, BY AGE

31%

carried by workers under 25, on the central run

SHARE OF THE GROUP'S OWN JOBS

Small numbers, unevenly placed.

-
- Under 25: about 3%
-
- 25 to 44: about 1%
-
- 55 and over: about 1%

BY EDUCATION AND INCOME

The degree and the paycheque both protect.

-
- No degree: about 2% of jobs
-
- Graduates: barely affected
-
- Bottom half of earners: about 2%
-
- Top tenth: barely touched

THE PRACTICAL ADVICE

Incumbents are mostly safe. Entrants are not.

WHAT CHANGES IT

If employers cut through layoffs instead.

Same total, borne by incumbents, and unemployment peaks higher.

What are you telling the seventeen-year-old in your life?
